

About the Authorized Distributor System

Dear Gendai Reiki Masters,

I hope you are enjoying peaceful lives with the guidance of Reiki.

A lot of things happen in our lives, but we can learn and grow if we look at them in a positive light and face them correctly. We can feel more benefits of Reiki when we must deal with difficult situations.

Although Reiki is now widespread in the world as a gentle and effective healing method, there are many ways to interpret and use the same energy.

While the usages of Reiki are broad, the original Japanese Usui Reiki Ryoho was born from Usui Sensei's enlightened teachings on the peace of mind of Anshin Ritsumei. In other words, he taught that the purpose of life is to fulfill one's role in life while maintaining a peaceful mind, unaffected by anything that happens in life. Gendai Reiki offers this teaching in a structure that is easier to understand and practice.

Many Gendai Reiki masters, across borders and beyond a language barrier, have sincere love for Reiki and an understanding of Usui Sensei's teachings to promote Gendai Reiki. Furthermore, to ensure that all masters share the same values, the official manual is the only place to which they can turn to in order to pass on the correct teachings of Usui Sensei without mistakes.

However, some masters do not understand its meaning and alter the content of the official manual, deleting important parts, and adding other things to it. That is not the way to accurately teach Gendai Reiki Ho to those who want to learn it.

We are now providing newly revised manuals in English and Spanish. We believe that the new translation is easier for non-native speakers to understand. We took this opportunity to consult with our staff and key masters overseas to establish the International Common Standards for Gendai Reiki Masters, to see how we could eliminate alterations and other issues to protect the legitimacy of the manuals. Common Standards has a lot of details, and some people may find it cumbersome. However, these rules will not limit your activities but protect your practice, activities, and yourself from undesirable circumstances. On this occasion of the official manual completion, we have decided to introduce a global distributor system to ensure the smooth delivery of the official manuals to you.

We have chosen our distributors based on their past activities, understanding and passion for Gendai Reiki, and excellent relationships with people who speak the same language. There may be times in the future to have additions or replacements, but this time, we believe that we have chosen those who understand the purpose of our objectives and are willing to cooperate with us. We would appreciate your understanding.

We hereby confirm that the distributors selected are authorized by me, Hiroshi Doi, and the entire staff of the Gendai Reiki Healing Association on the premise of following the International Common Standards for Gendai Reiki Masters and enforcing the rules. They are entirely entrusted with the sale of the official manuals and all related work.
